NOTE: Yesterday's betting sheet contained quite a few typos, which I apologize for. Consistent with recent days, I am not requiring minimum odds unless there are multiple plays in a single race OR I fear that the post-time odds will dip below 1-2. Also, the second race at PIM featured EXACTA plays keying the #7 on top and bottom with differing stakes (not the daily double that was erroneously listed. I have fixed these errors for my own record-keeping, but apologize to those that took the plays at face value, thereby trimming about \$80 from yesterday's profits.
